Certificate Number
000001

Registration For Free Electricity Generator On A Residence

ISSUED TO: Bill Smith
100 Main St.
Big, TX 75000

DATED: 5/1/06
DEALER NO: 000123x

ITEC and UCSA are dedicated in their effort to produce clean, efficient electricity, generated with a natural, safe, non-polluting, unlimited energy source sent by our Creator for our free use. UCSA dealers in good standing may exercise their right to grant supporters an annual allotment of free electricity. In so doing, they are providing individuals an opportunity to make their own "Declaration of Energy Independence". The holder of this certificate must attend a public demonstration of free electricity (or have a "stand in" do so) in order to be entitled to the benefit contained herein. When you help advance the technology, you will be helping to reduce fossil fuel pollution, as well as helping eliminate the use of harmful atomic radioactive power plants.

The company acknowledges your position in line for the use of a Free Electricity Machine, to be delivered and installed on your home, "if and when" they are available on a "first come, first served" basis. In the alternative, if an installation is not feasible, ITEC will just pay for the usage of up to 26,000 kwh of electricity from the electric company at the certificate holder's location per year. You will not own this machinery, but will have the use of 26,000 kilowatts of the electricity it produces each year for as long as ITEC can sell the excess electricity it produces. You have not made any payment for this alternative energy source, to be provided to you for your own use, at absolutely no cost to you for the electricity you use! You will never be required to pay anything to receive the electricity, "if and when" the technology is ready for application to homes in the USA.

The equipment provided shall be serviced and maintained by ITEC (or its appointee) for as long as ITEC remains in business selling electricity commercially. If you do not own the property where this unit will be installed, you must get the approval of the property owner. This relationship may be willed to your heirs upon your death. The entitlement cannot be sold, mortgaged, pledged, or otherwise reassigned, except to heirs, without the approval of ITEC. This registration is not a guarantee that this will happen, as there are many factors in this offer, that are beyond the control of ITEC, or UCSA and any of their affiliates. You agree to cooperate with ITEC, UCSA and BWA to make this happen in every reasonable way.

This document is uniquely numbered and will be registered with the office. A Letter of Confirmation is being sent with this Certificate. You may be required to show identification and to produce BOTH these documents in tact to verify your entitlement. It shall be your responsibility to stay in contact with ITEC and provide ITEC with a change of address and/or phone number, if you move. If ITEC cannot easily locate you, it may result in the forfeiture of this entitlement, solely at the discretion of ITEC.

ITEC reserves the right to deny the issuance of any registration.

itec *Confirmation Letter*

As of the date printed on your registration you are registered to be in line to receive Free Electricity, if and when we are able to advance it. We want to make sure that you understand that you are one of 1.6 million witnesses that are crucial to making this project happen, and that we do expect you to attend the demonstration of free electricity nearest you on the day and location we notify you of. We are sure you will want to attend anyway, but we want to make sure you understand that we are counting on your attendance to be able to show our public support. We want to make it clear that the reason we are willing to give you all your electricity for free, possibly for the rest of your life, is in exchange for your willingness to be present at the demonstration. You may send someone to stand in for you if you are unable to attend that day. When you are notified of the scheduled demonstration, you will likely be provided with a barcoded invitation to present that day.

If you are an apartment dweller, or do not own the residence you live in, and you want an actual unit installed, you will be required to produce a notarized letter of authorization from the owner of the property before installation, assuming it is feasible to install.

Please be sure to keep the numbered Registration Certificate you have received. You may need to produce it to verify that you are the authorized recipient. Please take a moment to verify that the information we have on record for you is correct. If it is not, please contact your dealer and provide him/her with correct information so he/she can correct your certificate. If you cannot contact your dealer, please correct the information on this letter and mail it to: ITEC, P.O. Box 576, Newfoundland, NJ 07435. It is very important that we always have your current and correct data so we are able to notify you at the appropriate time. The information we show is as follows:

Physical Address (*this is the address where the equipment would be installed*)

Name: Bill Smith
Street: 100 Main St.
City/St/Zip: Big, TX 75000
Evening Phone: 972-222-2000 Day Phone: 972-222-2001

Mailing Address (*if different than your physical address*)

Name: Bill Smith
Street: PO Box 100
City/St/Zip: Big, TX 75000

You must notify us if you move or if any of your information changes. If you do not and we cannot easily locate you to notify you of the demonstrations, you could forfeit your entitlement to free electricity. You may stay updated on our progress by periodically calling 212-461-8738. We will not otherwise contact you until the demonstrations are ready.
